REMARKS

Claim 28 is pending in this application. No new matter has been added by this amendment. Applicant is respectfully requesting reconsideration of the restriction requirement in view of the following remarks.

I. Species Election

The Examiner suggests that Applicant has failed to elect either a specific opium alkaloid or a specific calcium calmodulin dependent kinase II inhibitor. It is respectfully pointed out that the Restriction Requirement mailed May 8, 2006 indicates that claims 28 and 29 are directed to the patentably distinct species of inhibitors of calcium calmodulin dependent kinase II, whereas claim 29 is directed to the patentably distinct species of opiate alkaloids. Thus, in an earnest effort to be completely responsive to this species election requirement, Applicant elects K93 as the species of inhibitors of calcium calmodulin dependent kinase II, with traverse.

Respectfully submitted,

Jane Massey Licata
Registration No. 32,257
